

Used Cooking Oil Recycling

According to the United States Environmental Protection Agency (EPA), "Hotels and restaurants in the United States generate **3 billion gallons of waste cooking oil per year.**" Improperly disposed of oil and grease can lead to serious sewer, plumbing, and even fire hazard issues!

Does your business generate used cooking fats, oils, and greases?

Consider recycling your used cooking oil into biodiesel and other consumer goods!

These companies offer used cooking oil collection services in Tacoma. They can work with you to determine the level of service that works for your business, and most are available free of charge!
